Darshan K - I yr BBA “B”, (2021-24 Batch)

Date and day: 25-11-2022

## **BLOOD DONATION CAMP**

With a massive growth in the world population, there has also been an alarming rise in diseases. Mortality rates are constantly fluctuating. Hospitals are always in dire need of transplants and donations. In such a scenario, donating blood is our duty, as a fellow human being. It should be a voluntary, heartfelt gesture.

Blood donations enable a patient to receive treatment that fits their condition, thereby, speeding their recovery. Donations also assist surgeons in carrying out safe surgery. They can make use of the large supply of suitable blood type, in order to operate on an individual. Donated blood can be stored up till a specific period of time. To battle this issue of shelf life, we need to make sufficient contributions. We are fortunate to be leading a healthy life, and our blood is constantly regenerating. By donating blood, we are showing our concern for the welfare of others. We are helping to build a healthier and safer environment for all.

Students of NSS club arranged the blood donation camp in partnership with Rotary club on 25<sup>th</sup> November 2022.

Many students and teachers from the college donated blood to save lives. This small step can save many people and gives satisfaction to the person who donated the blood.

# DONATE

## TO GIVE THEM A BETTER FUTURE.

“If you can't feed a 100 people, then feed just one”

We are trying to make an impact on the lives of needy children by providing them with essentials. It is our humble request to contribute in this noble cause.
