Event Report

Higher Education Goes Digital: Key Trends

Personalized Learning: Tech tailors education to individual student needs.

Blended & Online Learning: MOOCs, micro-credentials, and hybrid models offer flexibility and accessibility.

Emerging Technologies: AI tutors, VR/AR create immersive experiences and personalized feedback.

Digital Skills Focus: Curriculum equips students with skills needed in the digital age.

Lifelong Learning: Online platforms and micro-credentials enable continuous learning.

Challenges:

Bridging the Digital Divide: Ensuring equitable access to technology.

Faculty Development: Equipping educators to effectively use technology in teaching.

Data Security: Protecting student information in the digital learning environment.

Future-proofing education: Embracing these trends empowers students to thrive in the digital age.

Overall, this FDP helped participants understand the importance of digital alignment in the context of higher education and that it empowers both teachers and students
