Event Report

The UG students of ISME who are part of the CSR club had decided to do an orientation on career guidance/ opportunities for the Government school students of class 10 at Dommasandra. 165 students were divided into three sections. Our students were divided into three groups based on the subjects- Commerce, Science, and Arts. With the help of charts, our students presented the career opportunities of the respective streams to the students. It was well received by the students and the program was done successfully. We also had student interactions many questions were answered and we helped them clarify their career choices. We even received feedback forms from the students and recorded them. The Headmaster and the teachers were also very happy and thankful to us.

The SSLC students in the Government school of Dommasandra were benefited by this program

The primary objective of the session was to help 10th-standard students make informed decisions about their future career paths by introducing them to different fields and opportunities available after completing their secondary education.

Exploration of Career Options:

The BBA students provided an overview of various career streams such as business management, finance, marketing, entrepreneurship, and others. They elaborated on the educational requirements, job prospects, and growth opportunities associated with each field. Real-life examples and case studies were used to illustrate the practical aspects of different career paths.

Question & Answer Session:

A question and answer session followed, where the 10th-standard students had the opportunity to ask queries related to career options, higher education, and skill development. The BBA students provided personalized guidance and advice based on their own experiences and insights gained during their academic journey.

The career guidance session concluded with a recapitulation of key takeaways and resources for further exploration. The 10th standard students expressed gratitude for the informative session and appeared more confident and motivated about their future career paths. The session highlighted the significance of peer-to-peer guidance in career planning and underscored the importance of early career exploration and decision-making.
