**Password :**

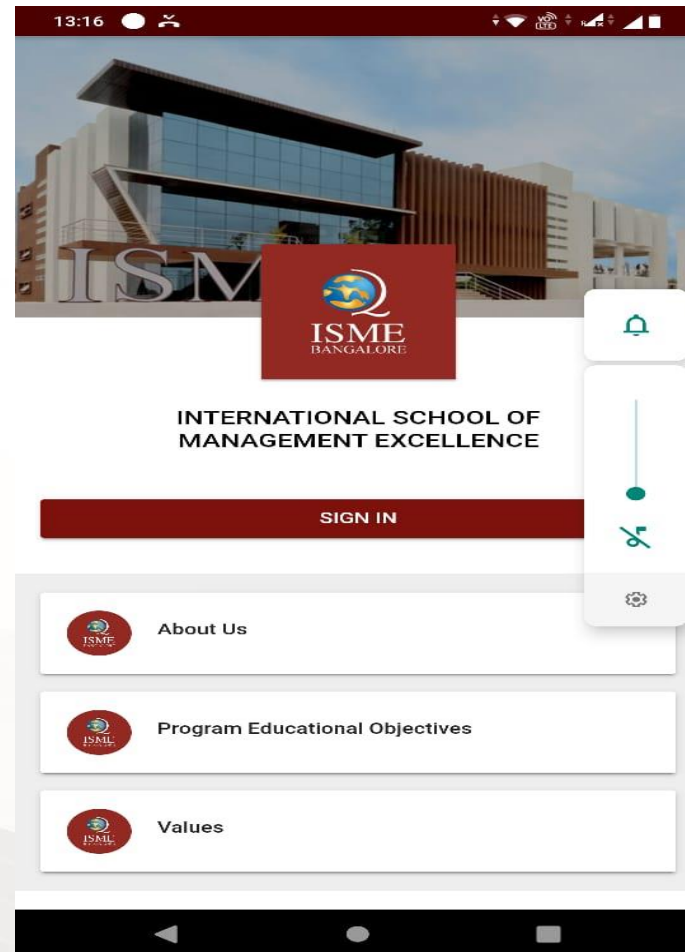

- **Desktop URL based User**
- **Mobile App User**

App is Available in Google play store &  
Apple store

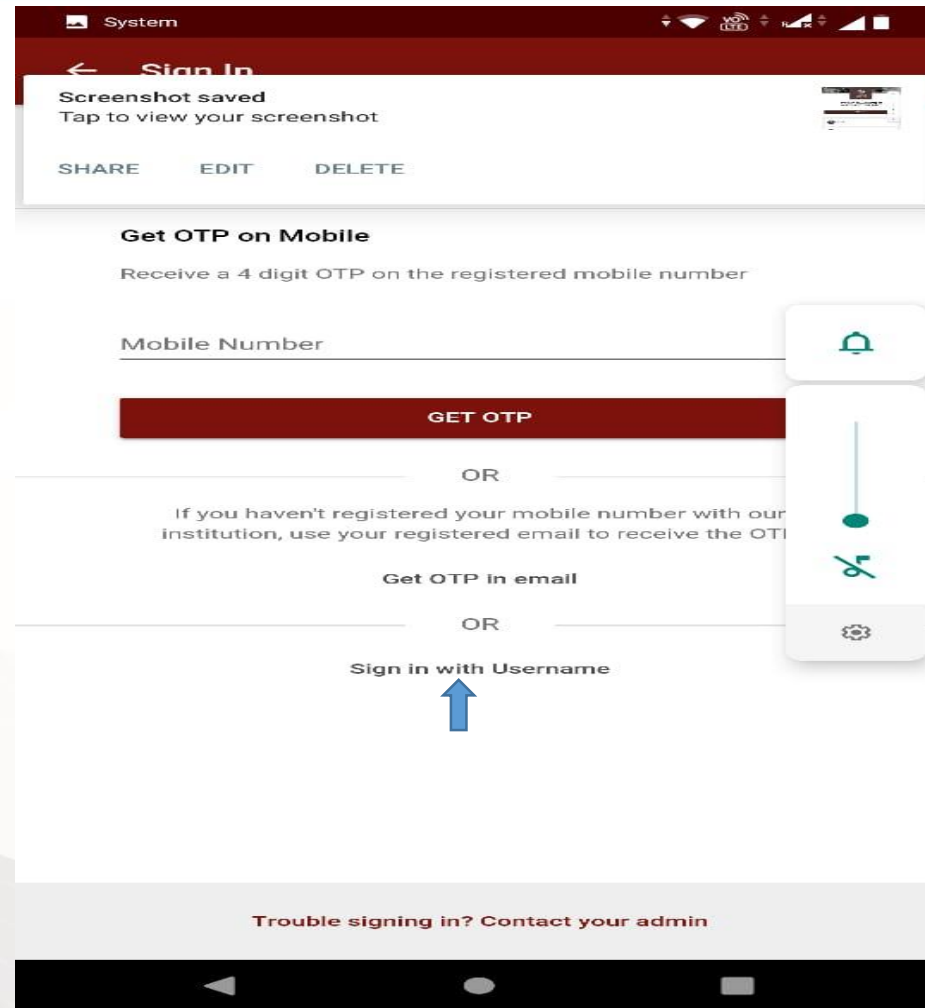

App Name : **ISME Excel**

Install in the mobile devices

## Appearance of Mobile App

## Login to Mobile APP

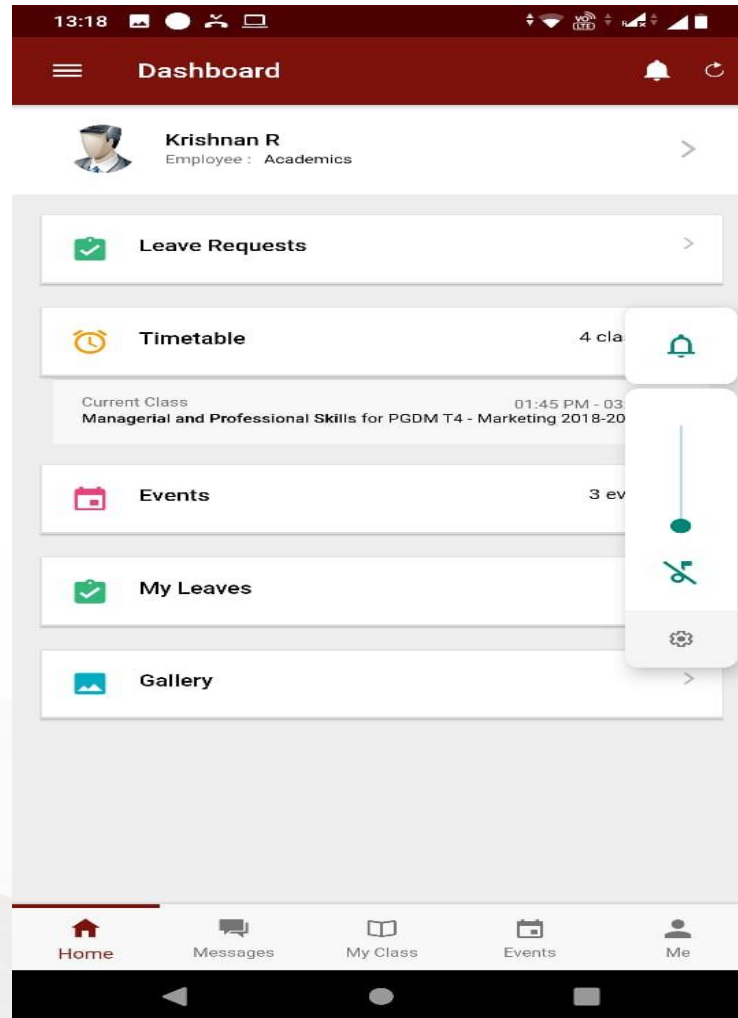

The screenshot shows a mobile application interface for logging in. At the top, there is a dark red header with a back arrow and the text "Sign In". Below the header, a white notification box states "Screenshot saved" and "Tap to view your screenshot", with options for "SHARE", "EDIT", and "DELETE". The main content area is white and features the following elements:

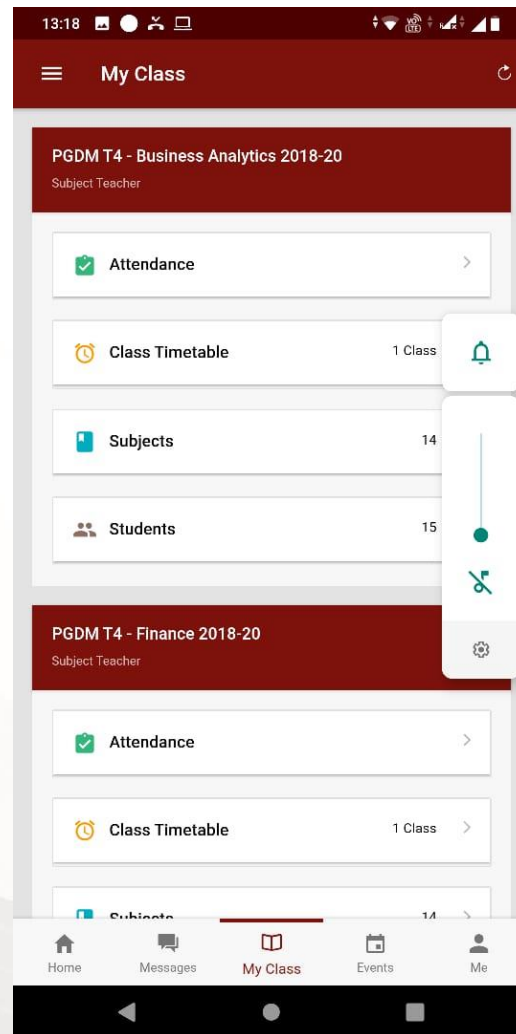

- Get OTP on Mobile**: A section with the instruction "Receive a 4 digit OTP on the registered mobile number".
- Mobile Number**: A text input field with a bell icon on the right.
- GET OTP**: A prominent dark red button.
- OR**: A separator line with the text "OR" in the center.
- Get OTP in email**: A section with the instruction "If you haven't registered your mobile number with our institution, use your registered email to receive the OTP".
- Get OTP in email**: A text input field with a percentage icon on the right.
- OR**: A separator line with the text "OR" in the center.
- Sign in with Username**: A text input field with a blue arrow pointing upwards to it.

At the bottom of the screen, there is a grey bar with the text "Trouble signing in? Contact your admin". The Android navigation bar is visible at the very bottom.
