

7.1.2 The Institution has facilities and initiatives

Waste Management Initiatives at ISME College

ISME College recognizes the importance of environmental sustainability and has implemented various waste management initiatives to minimize its ecological footprint. These initiatives encompass both waste reduction strategies and responsible disposal methods, contributing to a cleaner and greener campus environment.

1. Segregation at Source: ISME College emphasizes the segregation of waste at its source to facilitate effective recycling and disposal. Separate bins are provided for different types of waste, including recyclables, non-recyclables, and organic waste.
2. Awareness Campaigns: ISME College regularly conducts awareness campaigns and workshops to educate students, faculty, and staff about the importance of waste management and the need for sustainable practices. These initiatives aim to foster a culture of environmental consciousness within the campus community.
3. Collaboration with Local Authorities: The College collaborates with local authorities and waste management agencies to ensure proper disposal of hazardous waste and compliance with environmental regulations. This partnership enables the college to responsibly manage all types of waste generated on campus.
