Tree plantation**

Date :- 4th June 2022

Location:- Chembenahalli

Time:- 3:05 PM

Event Report

On June 4th, 2022, NSS students embarked on a tree planting initiative at Chembenahalli. Their mission aimed to bolster environmental sustainability and combat deforestation. With determination, they planted a variety of saplings, fostering biodiversity and ecological balance in the region. Their efforts underscored the significance of community engagement in environmental conservation. Through teamwork and dedication, they contributed to a greener future, leaving a tangible impact on both the local ecosystem and the community's consciousness about environmental stewardship. This initiative not only enriched the landscape but also instilled a sense of responsibility towards nature among the participants, fostering a culture of sustainability within the NSS community.

Poster / Flyer / Notice

Event Report

Chembanalli Lake, serves as a vital ecological asset and a primary water source for the surrounding community. However, in recent years, the lake has faced significant degradation due to pollution, encroachment, and neglect. This report aims to outline the current status of the lake and propose conservation measures to restore and preserve its ecological integrity.

Status: Chembanalli Lake suffers from pollution caused by untreated sewage discharge, agricultural runoff, and solid waste dumping. These pollutants have led to eutrophication, resulting in algal blooms, depleted oxygen levels, and loss of biodiversity. Additionally, encroachment along the lake's banks has reduced its water retention capacity and disrupted natural habitats.

Conservation Measures: Pollution Control: Implement strict regulations to prevent further pollution by enforcing proper waste management practices, installing sewage treatment plants, and conducting regular water quality monitoring.

1.Habitat Restoration: Undertake habitat restoration projects to revive degraded areas, including wetland restoration, reforestation of buffer zones, and removal of invasive species.

2.Community Engagement: Engage local communities through awareness campaigns, workshops, and participatory conservation programs to foster stewardship and encourage sustainable use of lake resources.

3.Legal Protection: Advocate for legal protection of the lake and its surrounding ecosystem through the establishment of protected areas, conservation easements, and zoning regulations to prevent further encroachment and ensure long-term conservation.

Chembanalli Lake is a valuable natural asset that requires urgent conservation efforts to reverse the damage caused by pollution and encroachment. By implementing the proposed measures and fostering community involvement, we can restore the lake's health and ensure its sustainability for future generations

Health & Hygiene Awareness Program

An Initiative by NSS

Find activities you enjoy
Doing activities that you enjoy and that make you feel good can be a great way to manage and maintain your mental health. Finding activities that provide a sense of purpose and joy can help to give you a sense of satisfaction and accomplishment.

Take care of your physical health
Eating healthy, getting exercise, and making sure to get enough sleep can help to improve your mental wellbeing. Taking care of your physical health can help to regulate your mood and can prevent or reduce stress.

Place: Chembenahalli

Event Report

Health & Hygiene Awareness Rally @ Chembanahalli

NSS is mainly “out of the classroom” student eccentric program where teachers provide only guidance while students are the main actors. It inculcates in students a sense of leadership and teamwork enabling them to identify and resolve community issues. Hence leadership, collectivism, social responsibility and community participation are at work all the time. These attributes also make them come close to social and environmental realities. There have been several instances of excellent work and exemplary conduct of NSS units which have earned them respect and confidence of the people throughout the country. The special camping programmes organised under the themes of ‘Youth Against Famine (1973)’, ‘Youth Against Dirt & Disease (1974-75)’, ‘Youth for Eco Development’, ‘Youth for Rural Reconstruction’, ‘Youth for National Development and Youth for Literacy (1985- 93)’, ‘Youth for National Integration and Communal Harmony (1993-95)’ etc. have resulted in gains both to the society & the volunteers. Also, from 1991-92 onwards NSS has launched a nationwide campaign on AIDS awareness called “Universities Talk AIDS” (UTA).

In these years all knows how health is important to us as good health is our wealth only people with good health can survive as only when he is heathy he will be able to make money and survive for maintaining good health we have to eat good food, exercise , and maintain your diet also for good health you should also maintain good hygiene too as lack of hygiene can lead to many diseases like typhoid cholera etc which can cause a loss of life, so it is very important to maintain good health these times.

On 22/07/2022 All the NSS club members went to Chembanahalli village to spread awareness about health and hygiene to all the people in the village as many people still doesn't know about basic health problems and hygiene techniques. There were around 15 people from ISME College who took initiative for this campaign. Many people who knew the local language which is Kannada were able to talk to the locals and tell taught them many hygiene techniques like how to wash hands, how to clean vegetables with salt water and soap to eradicate all diseases related to germs. We also told different health problems caused by lack of hygiene and told them many methods how to avoid them.

At last all the group members gathered around took a group pic with all the club members and the coordinators were led by Prof.Ramesh C P sir who is the NSS club coordinator also took pictures in the village and collected a lot of information about the village and took some picture of ongoing problems faced by the villagers for health and hygiene so that we will be able to notify the government so that they can take action against it. All the club members enjoyed helping people and spreading awareness to people and also learnt many lessons of the way how the village people are living and their lifestyles etc. In future we hope to continue doing this work and many other works to help people in need.

SWACHH BHARATH ABHIYAN

**Live Life Cleaner.
Make Earth
Greener.**

Date : 18/11/2022
Time: 3.00 pm - 6.00 pm
Place: Chambenahalli

Event Report

Swachh Bharat Abhiyan is a Clean India drive and mission launched as a national campaign by the Indian Government aimed at maintaining the cleanliness of streets, roads, and infrastructure of the country. Indian Prime Minister, Narendra Modi launched this mission on 2nd Oct (the birth anniversary of Mahatma Gandhi) in 2014 at Rajghat, New Delhi. While launching the event Prime minister himself had cleaned the road. It is the biggest cleanliness drive ever in India where approximately 3 million government employees including students from schools and colleges took part in the cleanliness activities.

On 18th November 2022 NSS club students from ISME decided to spread the swatch Bharath movement and cleaned a temple in Chembanahalli village.

All the students came together to sweep the streets around the temple to keep the place neat and hygienic. Students also mentioned they had lots of fun and satisfaction while doing this. Some locals saw the work and we were sure that it motivated them to clean their homes and their surroundings.

Many influential people have taken it forward and are spreading awareness in this regard. It's nice to see so many people coming forward for this initiative. No government policy or scheme has ever worked without cooperative citizens, and neither would this one. Students of the NSS club were a huge success in spreading awareness

Location: Dommasandra

No of students present: 50

Poster / Flyer / Notice

Event Report

AIDS awareness programs are important in spreading knowledge about HIV/AIDS and promoting prevention and support. These programs aim to educate people about the transmission, prevention, and treatment of HIV/AIDS. The NSS volunteers of ISME decided to raise awareness on this topic, address the public, and help them increase their knowledge on this topic. There are various activities done to educate the public information campaigns were held where students provide accurate information about HIV/AIDS, including how it is transmitted, ways to protect oneself, and the importance of testing and early treatment.

Overall, AIDS awareness programs play a crucial role in raising awareness, reducing stigma, and promoting prevention and support for individuals affected by HIV/AIDS. It is important for everyone to be informed and take proactive steps to protect themselves and support those living with HIV/AIDS.

Event Report

The UG students of ISME who are part of the CSR club planned to do an Anti-smoking campaign from our college to **Dommasandra Circle**. Posters and slogans were made to spread awareness about the effects of smoking. They started the rally from the main gate of the college and walked to Dommasandra Circle with about 40 students of the UG CSR club by calling out the slogans loudly. An effort to spread awareness among the youth and the public was appreciated.

This rally was aimed to benefit the local community around Dommasandra ,Bangalore

Event Report

On account of Swachh Bharat to bring the awareness in government lower primary school of Chembhanalli, Sarjapur Road. The students of ISME under the CSR club have made it a mission to bring awareness among the children of lower primary. A key feature of the campaign is to ensure that every school in India has a set of functioning and clean water, sanitation, and hygiene facilities. Water, sanitation, and hygiene in schools refers to a combination of technical and human development components that are necessary to produce a healthy school environment and to develop or support appropriate health and hygiene conditions. It is a first step towards a healthy physical learning environment, benefiting both learning and health. Children who are healthy and well-nourished can fully participate in school and get the most from their education. Hygiene education in schools helps promote those practices that would prevent water and sanitation related diseases as well as encourage health in future generations of adults.

The Government School of Chembenahalli, Sarjapura Road were the beneficiaries

Place : Chambenahalli

An Initiative by
NSS

Event Report

India is one of the largest democracies in the world. The notion of 'Government of the people, by the people and for the people' holds only when the entire nation participates in the election process. The right to vote gives the country's citizens the power to exercise their franchise and decide collectively with the majority who they think can carry on the responsibilities and concentrate on the development and well-being of people.

However, there has always been a disconnect between the voters and the election process. It has been observed that many voters do not take the election process seriously and do not understand the gravity of the power to vote and the responsibility that comes along with it.

We all just consider the voting day as just another holiday and decide to chill at home.

NSS club students with NSS club coordinator Prof CP Ramesh and Mr Raveesh on 21.04.23 visited Chembanahalli village to bring awareness to people about the importance of voting and how it will impact their lives and their future. This step taken by the NSS club hopes to bring at least a little change in people and motivate them to vote. Students enthusiastically spoke to locals and completed the awareness campaign.

The program is aimed to spread awareness among the people and community in large at Chembenahalli

JOIN US FOR A TREE PLANTATION DRIVE

7 MAY, 2023 | 11:30 AM

Let's build a community of nature lovers
and revive our planet with greenery.

Event Report

On May 7, 2023, Adamyia Chetana organized a significant plantation drive aimed at fostering environmental sustainability and green consciousness within the community. The initiative witnessed enthusiastic participation from members, volunteers, and local residents, all dedicated to contributing positively to the environment.

Objective: The primary objective of the plantation drive was to enhance the green cover in the area, mitigate the effects of climate change, and promote ecological balance. By planting a variety of native species, the endeavor aimed to create a healthier and more vibrant ecosystem within the vicinity of Adamyia Chetana.

Event Highlights:

Community Participation: Members of Adamyia Chetana, along with volunteers and local residents, actively participated in the plantation drive. Their collective effort underscored the shared commitment towards environmental stewardship and sustainable living.

Plant Diversity: A diverse range of plant species were chosen for the plantation, considering factors such as local climate, soil conditions, and ecological suitability. This diversity not only enriches the landscape but also supports biodiversity conservation efforts in the region.

Educational Component: The event incorporated an educational component, with experts providing insights into the importance of trees, their role in mitigating climate change, and the significance of preserving native flora. This knowledge-sharing initiative aimed to raise awareness and empower participants to become advocates for environmental conservation.

Sustainable Practices: Emphasizing sustainability, the plantation drive adhered to environmentally friendly practices, such as utilizing organic fertilizers, optimizing water management techniques, and promoting eco-friendly gardening methods. These practices ensure the long-term health and vitality of the newly planted vegetation.

Community Engagement: The plantation drive served as a platform for fostering community engagement and collaboration. Through shared experiences and collective action, participants forged meaningful connections and reinforced their commitment to creating a greener, more sustainable future for generations to come.

Outcomes:

A significant number of trees and plants were successfully planted, contributing to the expansion of the green cover in Adamyia Chetana and its surrounding areas.

The plantation drive raised awareness about the importance of environmental conservation and encouraged community members to take proactive steps towards safeguarding the planet.

By fostering community involvement and collaboration, the event laid the groundwork for future initiatives aimed at promoting environmental sustainability and resilience.

Conclusion: The plantation drive organized by Adamyia Chetana on May 7, 2023, stands as a testament to the power of collective action in addressing environmental challenges. Through concerted efforts and community engagement, the initiative not only enhanced the local ecosystem but also inspired individuals to embrace a culture of environmental stewardship and responsibility. Moving forward, it is imperative to build upon this momentum, implementing further initiatives that nurture our connection with nature and uphold our commitment to preserving the planet for future generations.
